FILE No. 389 of 1892.

In connection with the carrying out of water supply for the C.M. station, it was suggested to the Municipal Council that a general revision of house assessment should be made.

Que to J. N. 6

2. The Commissioners originally came to a resolution that this work should be done by the Vice President assisted by two Commissioners, but it was pointed out to them in Dec. 1891 that the assessment should be fixed under the Regulations by the President assisted by two Councilors & that it was necessary to appoint a Competent Valuator for the purpose.

A. N. S. A

3. This matter came up before the Council at their meeting of 8 April 1893. It was resolved that the President should assess the buildings with the aid

of two divisional Commissioners. As regards  
the Valuator, General <sup>Fischer</sup> proposed that he be  
granted a pay of £250/- a month exclusive of  
carriage allowance, but not exceeding £300/-  
in all. Mr. Olcott suggested an amendment  
that the Valuator's pay be fixed at £600/- a month  
& that a bonus to him <sup>the question of</sup> or a percentage be  
considered on the completion of the work with  
reference to the increased income of assessment.  
Mr. Olcott's amendment was carried - 12 for & 5 against.  
4. The Council have further resolved that a  
carriage allowance of £60/- a month be passed for  
the President & 2 Councilors in carrying out the  
work.

5. In letter N. 60 of 10th April 1893, the President requests sanction to the above  
proposals. It is presumed that the revision  
work will be completed in six months, &  
then a sum of £1000/- will be sufficient.  
Provision will accordingly be made in the  
budget for 1893-94 now under disposal in this  
Office.

7 In letter N. 1064 of the 2<sup>d</sup>. September 1893, the President, Municipal Commission, reports the result of the work done by the Valuator in connection with the revision of house assessment in the 1<sup>st</sup> Division.

8 It was originally expected that this work would be finished in about six months, & accordingly a sum of £1000/- was provided in the current year's budget of the Municipality to meet this expenditure.

9 4 divisions with 8259 houses have now been finished with an increase of £7528-7-2 in the house & lighting rates. <sup>†</sup> This will be realized during the current year. Three more divisions have yet to be done. The President expects that the work will be completed in six months (in all one year) & therefore applies for sanction to an additional expenditure of £1636, as detailed in Statement A. It is proposed to meet this charge from the provision of £3400/- under head "Miscellaneous & Unforeseen charges".

11 In letter No 323 dated the 1<sup>st</sup> May 1894, the President, Municipal Council, Pt M Station, reports the completion of the revision of house assessment in the Pt M Station, bringing an increased revenue of Rs 15,676-11-9 or Rs 15,000. S.19

12 The Valuator, Mr Abdul Rahman, applied to the President for ~~an order~~ to settle the percentage to be paid to him under the Board's resolution of the 8<sup>th</sup> April 1893. S.8.A. He recommended an allowance to the revision clerk & remarked that the work had given him more labour & trouble than he had anticipated.

13 Mr. Bide proposed at the Board's meeting of 26<sup>th</sup> April 1894 that a bonus of Rs 2,500 be given to Mr. Abdul Rahman. An amendment was proposed by Mr. Olcott that a bonus of Rs 1,100 be granted. The amendment was lost.

14 The President's sanction is solicited to the payment of Rs 2,500 & the President proposes to debit the charge to the balance at the close of the current year.

Office Note.

12.

N. 1

In letter No. 976 of 7<sup>th</sup> Nov<sup>r</sup> 1892, the President reported that by going to the extreme limit of taxation, a sum of Rs 60,000 might be raised annually to pay for water supply.

Under the Regulations as it understood, the water rate should not exceed 2 p.c of the annual value of buildings. In the above calculation, the Municipality assumed 5 p.c (the levy of this rate must be sanctioned by the Gov<sup>t</sup> of India). At this rate, the water rate must have amounted to Rs 40,000, & the balance (Rs 20,000) is evidently proposed to be diverted for this purpose from the income from Town duties & other sources.

Same as house tax  
(5 p.c)

Since then, the house assessment is being revised, and it is expected that an increase of Rs 10,000/- will be obtained.

A

A corresponding increase of Rs 10,000/- might be obtained from water rate, & the amount available for water supply will come to Rs 80,000.

It is estimated that the Municipality's contribution for water supply will be one lakh rupees per annum. A sum of Rs 20,000/- has therefore still to be made up.

In accordance with the present Regulations, the maximum of rates for house & water rates is 5 p-c + 2 p-c respectively. In Madras city they are respectively 10 p-c + 4 p-c.

Sec. 64.  
Sec. 198.

To equalize the rates as proposed by the Council at 5 p-c seems undesirable.

Mr. Hewitt proposes in his note to raise the house assessment to  $7\frac{1}{2}$  p-c, yielding an additional income of Rs 25,000 for the purpose of water supply. This will be sufficient to make up the balance required. At 7 p-c house rate, the increase will just come up to Rs 20,000.

\* sanction of the Govt of India has to be obtained.

The taxes leviable under the Municipal Regulations in the 1st & 2nd Stations are as follows:

Tax

- (a) Tax on Carriages, carts, horses & other animals kept within the C.M. Station.
- (b) Fees upon for the registration of carts & other wheeled vehicles intended for use kept within the C.M. Station.
- (c) Tolls on Carriages, carts & animals entering municipal limits.
- (d) Tax upon arts, professions, trades or calling & liquor license.
- (e) Rate on houses, buildings & lands.
- (f) Town duties.
- (g) Lighting rate.
- (h) Water rate.

Of these, (d), (e), (f) & (g) are now in force. (h) should of course be levied when water supply scheme is completed & water brought into the C.M. Station.

Submitted.

AS.  
2.6.93

The only solution of the difficulty as regards funds seems to be to raise the

House tax 2%: and  
the water rate from  
2 to 5% - The actual Municipal  
expenditure is just about  
covered by the revenue,  
but considerable reductions  
may probably be effected  
under "Repair etc. and  
"Public Works." ~~The Gas Supply.~~

~~Refined~~ The lighting

of 2. 41. 93 rate is certainly  
low compared with

the expenditure, if this  
were raised <sup>half</sup> ~~in the~~ per cent,  
we could have better lighting  
and a fair surplus toward  
the water supply -

This would  
mean about  
5000 more.

In letter No. 3227-9 of the 12-September 1894, the Ameyji kept convey sanction to the acceptance by Mr. Abdul Rahuman of the allowance of Rs 100 a month. As regards the further bonus, Mr. A. R. has, in the opinion of the Govt. of India, been not insufficiently remunerated by the grant of the allowance, but in view however of the fact that he has been led to expect that a bonus would be granted to him, the Govt. of India sanction the payment to him of a sum of Rs 300 <sup>being</sup> <sup>that</sup> being equal to nine months' pay.

In para 3, the Ameyji kept deprecate the <sup>above</sup> arrangement which had the effect of giving the assessing officer a bonus in proportion to the increased revenue obtained by his assessments.

In assessing Officer holds a quasi-judicial position & the Govt of India consider that he should not be placed in the position of having a pecuniary interest in his own judgments.

If approved, the substance of the Foreign Department letter may be communicated to the Municipal Commission for information, with reference to correspondence ending with his letter of 20th July 1894.

The Assistant to the Resident in Mysore,

BANGALORE.

Sir, Referring to your letter no:  $\frac{3470}{2888}$ , dated 28 October 1892. I have the honor to forward copy of a Resolution of the Commissioners passed at their special meeting of the 5 Instant, in connection with the allotment of funds, for carrying out a water supply for the Civil & Military Station of Bangalore.

2. The Commissioners took into consideration the amount of income that will be placed at their disposal by the levy of  
a

water rate of 5% under section 198 of the Regulations (which now only provides for 2% on the valuation of houses) as recommended by them in their Resolution dated 12 September 1891, submitted with my letter No. 540, dated 16 Idem, as also the income that will be derived from the re-introduction of octroi, and after providing for important Sanitary works &c, which have had to be deferred, from time to time, for want of funds, have come to the conclusion that they are unable to guarantee a larger annual payment than Rs 60,000, on account of. (sixty-thousand Rs) the water supply

I have the honor to be

Sir

Yours most obedt Servant

Th. M. Path

President.

Abstract of Proceedings of a Special  
meeting of the Municipal Commissioners for  
the C & M Station of Bangalore, dated 5  
November 1892.

3. Read. Letter No. 3470-2888, dated  
28 October 1892, from the Assistant  
to the Resident, forwarding letter  
No. 2694 M.W., dated 15 September 1892,  
from Government of India, re the  
water supply scheme for the  
Civil and Military Station of  
Bangalore.

Proposed by Mr Olcott.

X With reference to Assistant  
Resident's letter No. 3470  
2888, dated 28  
October 1892, forwarding letter from  
Government of India No. 2694 M.W.,  
dated 15 September 1892, para 4,  
the Commissioners have not  
fully considered the figures,  
but have confined themselves to  
the one question of the taxable capacity  
(for water) of the Civil and  
Military Station. They would  
however draw the Resident's atten-  
tion to the late Sir O. S. John's  
opinion

opinion, as expressed in Assistant  
Resident's letter no. 2850, dated 29  
August 1890, Para 3, that "Rs 40,000  
is the maximum annual amount  
which the Municipality is able  
to pay for its water."

The Commissioners believe  
that by going to the extreme limit  
of taxation, the sum of Rs 60,000/-  
might be raised annually to pay  
for water. They do not believe  
that this could be exceeded.

No. 4041

Dated 14/12/

1892 To

The Resident. Ld. Comr.

Sir,

I am directed to acknowledge the receipt of your letter No. 9767. Dated 7th Nov. 92, & enclosures, and with reference to para 2 in which the Commissioners are stated to have taken into their consideration the amount of income that will be realised at their disposal by the levy of a water rate of 5%, among other receipts to be realised, and making an aggregate of Rs. 60000 towards the water supply. I am to remark that the estimated amount from a 5% water rate on the value of houses in the C. M. Ch. seems very low, when it is considered

of

how much the value of house property must have increased during the last few years.

2. Referring to a Memorandum submitted on the 9<sup>th</sup> of June, it appears that the number of houses ~~from~~<sup>in</sup> 1865-66 to 1892-93 increased from 6614 to 13,415, while the assessment was £ 14,544 - 12 - 10 & £ 39,165 - 10 - 0 respectively, that is, while the number of houses in 26 years was doubled their value was increased by  $2\frac{3}{4}$  per cent. Taking this as a basis, which of course is only a rough guide, the increase of assessment is not in proportion to the increase of the number of houses. Moreover, it is certain that

that in addition to the increase of mere numbers, there has been a large increase in the rental value of the houses, which the assessment does not show.

3. It would appear from para 4 of your Memo. that the assessment is revised annually on the rental values ascertained from year to year. It would seem impossible that the whole assessment could be revised annually, and hence it is presumed, that what is wanted is, that alterations in particular cases under Sec. 77 of the Municipal Regs., are made annually, and what now appears necessary is a systematic revision of the whole assessment, <sup>as</sup> ~~and~~ <sup>which</sup>

has been done in Madras  
& other Municipalities & also  
in the Sunderbhedh taluk,  
in both of which places a  
very large increase was  
obtained by a period assessment.

4. The Rev. Secy. to Govt. is  
confident that if a period  
assessment is made, a  
considerable increase will  
be obtained on the present  
assessment & that a 5%  
water rate on this would  
realise a much larger  
sum than the ~~present~~ sum hitherto  
to command this proposal  
for the early consideration of the  
Municipal Comm.

## Memorandum.

House Tax was first introduced into the Civil and Military Station of Bangalore in the year 1865-66 when the assessment was fixed at Rs 14544.12.10 on 6614 assessable Houses. While that for the year 1892-93 amounts to Rs 39165.10.8 on 13415 houses

2. From the annexed statement it will be seen that during the intermediate period there has been a steady increase in the assessment due to an increase in the number of houses as well as enhancement of amounts on the increased rentals of houses already assessed

3. Principle adopted for the levy of assessment and revision thereof is strictly in accordance

accordance with the pro-  
 -visions of sections 76 + 77  
 of the Bangalore Muni-  
 -cipal Regulations of 1883  
 by ascertaining from  
 the tenants the rental  
 value of Garden Houses  
 from year to year -  
 while the amounts on  
 Houses in Native quarters re  
 occupied by the owners  
 themselves is determined  
 by the valuation and  
 the rental values of  
 such houses in pro-  
 -portion to the assessment  
 already fixed on houses  
 in such localities. —

Surely it is not meant that the  
whole assessment is carried annually.  
 This would be an impossible undertaking.  
 Individually what is meant is that the  
 'alterations in particular cases' under  
 Sec 77 are made annually -  
 But what we need is a systematic  
 revision of the whole assessment -  
 This is done in other Municipalities -  
 In Madras for instance I know that  
 a very large increase was obtained  
 by a revised assessment - I  
 remember the same result at  
 Secunderabad

4 Having regard that  
 the assessment is revised  
 annually on the rental  
 values ascertained from  
 year to year I do not  
 think that any consi-  
 derable increase may  
 be anticipated from  
 the 5 p.c. House Rate.

Section 198 of the Muni-  
 cipal Regulations of 1883  
 provides for the levy of  
 water rate at 2 p.c  
 and by increase of the  
 rate to 5 p.c. as re-  
 commended by the

Commissioners in their  
Resolution No 1 dated 12<sup>th</sup>  
September/91 forwarded with letter No. 544 of  
16<sup>th</sup> idem would bring in  
an additional Revenue  
of Rs 40,000 and the present  
collecting staff would  
collect the amount avoid-  
ing any extra Establishment.

Amund

~~Subordinate and the other persons~~  
~~in the same~~

Taking 66/67 as a starting point  
I see that the number of houses  
was 7185 & in 92/93 13,415 -  
The assessment has risen from  
Rs 21,337 to Rs 39,165 - on this  
basis therefore the increase of assessment  
is not in proportion to the increase  
of number of houses by a considerable  
percentage - But this is only a  
rough guide. In addition to the  
increase of mere numbers there has  
been a large increase in the <sup>market</sup> value  
of the houses which the assessment  
does not show

11. 1. 93

Dear Ravenshoe

The subject of a thorough  
re-assessment of House Tax  
was discussed at last  
month's Mnd. Meeting &  
the matter was referred  
to a Sub-committee, which  
Met next-Saturday, to  
consider the 'modus operandi'  
its proceedings will be  
laid before the next Mnd  
Meeting, whose Resolution  
will be sent to the Resident  
for orders &c

Under these circumstances,  
I doubt, if the work can  
be commenced much  
before March next =  
I expect a host of

appeal to cross up.

I think Col. Henderson's  
suggestion of getting a  
competent, & reliable  
man on a proper salary  
for six months to undertake  
the job is the best plan,  
as the Collr of Taxes will  
have his neck in the collar  
for the rest of the official  
year - there was some  
talk of the Divl Commrs  
doing it - but I think  
they are a poor lot to  
utilize for the purpose,  
& they have too many  
friends amongst the  
house-owners!

Yours truly  
J. M. M. M.

Note  
No. 3. Is the  
first taken  
up because it  
is the biggest  
Division  
= 94 =

The revision of assessment on houses, &c., in No: 3 Division occupied 17 working days, and was completed on the 25<sup>th</sup> instant, with the following result:

Total No. of houses visited . . . . . 3036.  
Total No. of houses the assessor  
in which has been lived  
"or visited" . . . . . } 1051.

Total increase of animal valuation \$36,254-12-0.

Total increase of annual assessment Rs. 2,175-4-5.

I think about  
\$10,000, allowing  
for peaks.

At a rough estimate, the result for the remaining five Divisions will be a probable income of about Rs. 10,500 more, or Rs. 12,678 in all, in round numbers, as follows:

No: 4 - R<sub>2</sub> 3.500 -

No: 5 —  $R_2$  1,000 —

No. 6 — R. 2,000.

No. 1 — R. 1, 500.

No. 2 — R. 2,000.

The work of revising the assessment in  
No. 4 Division will be started immediately -  
on the 3<sup>d</sup> June

THE PRESIDENT,

MUNICIPAL COMMISSION,

CIVIL & MILITARY STATION,

BANGALORE.

To

The First Assistant to the Resident in Mysore.

BANGALORE.

Sir,

I have the honor to inform you that when the expenses of the revision (now being carried out) of assessment of the houses and lands in the Civil & Military Station were being provided for in the Budget for the current year, there was no reliable data to guide the Commissioners, but they anticipated that the work would occupy at least six months, and budgeted accordingly.

Enclosed

2. Enclosed is a Statement showing the results of the Valuator's Work since 1<sup>st</sup> May 1893, the date on which he commenced work, also the increase in assessment in Nos. III, A IV, B IV, and V Divisions, the revision of which has been completed up to date. It is difficult to fix the time within which the remaining Divisions, Nos I, II and VI, will be finished, but I have made provision for its extending over the next six months, in case of its lasting so long.

3. Annexed is a copy of Memos from the Vice-President, and Collector of Municipal Taxes, together with a Resolution of the Commission No: 20, dated 31<sup>st</sup> August 1893, proposing an increased allotment of Rs 1636, which

which may be met from the  
allotment of Rs 34 00 in the  
Budget under head "Miscel-

The Valuator, finished to day  
the Assessment of no: 5 Division  
and Commenced ~~of~~ no: 6 on the  
29<sup>th</sup> instant, it will take about  
a month to finish no: 6 which  
will bring us to the end of the  
half year or later.

There is only one Bill collector  
for no: 5 divisions, and his  
time will be fully occupied with  
the Assessment of no: 6 till end  
of September, and for some time  
afterwards, in serving notices of  
increased Assessment &c, he  
has upwards of 3000 Tax bills to  
Collect for the current half year,  
and it is impossible for him  
to do this unaided.

I therefore request that the collector of taxes may be authorized to employ an additional Bill.

Collector, without any further delay, to help in collecting the House and Lighting rates in no: 5 & 6 divisions

To

The President.

Sir,

With reference to no: 988 of  
22<sup>nd</sup> instant, forwarding, for  
immediate attention, extract from  
Vice President's notes of the same  
date, I beg to report that the  
employment of four temporary  
Bill Collectors is imperative, to  
prevent the house and Lighting  
Rates falling into arrears in no: III  
IV, B. IV, V + VI divisions, as the Collection  
thereof has already been delayed  
in consequence of the provision of

Assessment

Assessment in those Division.

2. Bill books of no: III Division, the preparation of which had been held in abeyance, with a view to the Collection of the enhanced revised Assessment this year, were only issued on the 14<sup>th</sup> instant, and as there are nearly 3000 bills to be collected, it is not possible for the Bill collector of this Division to complete his Collection, without assistance, by the end of next month, when the first half of this year closes.

3. Bill books for no: IV Division were issued only towards the end, instead of the beginning, of July. There are about 2000 bills for this Division the Collection of which cannot be completed in due time i.e. within the half year ending 30<sup>th</sup> September 1893: without  
aid

Aid to the permanent Bill collector  
4. The Bill collector of B. IV division  
has just completed the service of  
Special Notices under Sec: 73, and  
has, therefore, not been able to attend  
to collection work till the 22<sup>nd</sup> instant,  
when only he received his bill  
books containing nearly 2000 bills  
which it is impossible for <sup>him</sup> ~~him~~ to  
collect unaided by the end of  
next month.

5. As remarked by the Vice  
President, in his notes under  
reference, there is only one Bill  
collector for no: V & VI divisions,  
whose time will be occupied in  
the revision of the Laker Division  
till the end of September, and for  
some time afterwards serving  
Notices of increased assessment, &c.  
In the meantime two temporary  
hands will be required to assist  
him in the service of notices of  
no: V division, and in the collection  
of House and Lighting Rates of  
both divisions, for which there are  
nearly 3000 bills requiring to be  
collected within the next five weeks.  
6. A statement is submitted,  
showing

showing the allotment of Rs: 1000/-  
Sanctioned in the Budget for the  
year 1893-94 for expenditure in  
connection with the revision of  
Assessment on houses ~~etc.~~ and the  
amount required to the end of this  
financial year as it is not at all likely  
that the revision will be completed  
within the anticipated period of  
six months; and the President's  
authority is requested to the  
immediate employment of the four  
additional temporary Bill collectors  
now provided for at a salary of  
Rs: 12/- per month, in anticipation  
of sanction.

Recommended that the collector  
of taxes proposals may be sanc-  
tioned, in anticipation of the  
Commissioner's approval, and  
President's confirmation; I may  
add that the revision of assessment  
on houses in No: 3 Division will bring  
in to the Municipality an addition-  
al revenue of Rs: 2100 for the  
current year, this will more than balance  
the proposed expenditure.

## A GRIEVANCE.

We inserted a letter in our issue of Saturday last over the the signature of "A Critic," the writer of which has a grievance against the Municipality, and he is not singular in this respect. There are hundreds—perhaps thousands—who could make a similar complaint, and though all the cases complained of many not turn out to be hardships, we feel certain that most of them are of this description. It will be remembered that sometime back it was determined to revalue the houses in the Civil and Military Station in order that the assessment might be properly adjusted. There was nothing in this to complain of. It was well known that some of the owners of houses did not pay their proper share of assessment, while others probably paid more than they ought to have done. To do away with these anomalies it was determined to have the houses in the Station re-valued, which, as we have said, was quite right. But the way the business has been carried out must be declared quite wrong. We suggested at the time that a paid valuator should be employed, and that he should be ordered to perform the duty systematically. The Municipality had an economical fit on it just then, and it did not see any reason why a special officer should be appointed to perform the work. So the work was given to the Second Magistrate, and he was not relieved from any other duty in consequence. He has had to attend to the valuation when he could find time to do so, and thus the work is not finished yet. A few Municipal Commissioners were told off to accompany Mr Abdul Rahman in his circuit round the town, and give him all the assistance in their power. These gentlemen would have much preferred to look after their legitimate work. The result is just what might have been expected. Houses are assessed at random; in fact, the duty is carried out exactly in the way our correspondent describes. The valuator and his assistants go into a street, ask what the assessment on a house is, and without making any further enquiries fix the sum to be paid in future, as a rule, always higher than has been paid in the past. Then the valuator and his friends "move on" to another house where the process is repeated. The whole business is performed at a hand gallop, and though the result may be gratifying to the Municipality it is anything but gratifying to the house owners. The case given by our correspondent is not a solitary one by any means, and the owners of houses are determined to do their best to oppose the new arrangement. Meetings are being held in different parts of the place, and the agitation is on the increase. In fact, there will be

so many appeals against the assessment that the whole work will have to be practically gone through again. Under these circumstances, the best plan would be to cancel all the proceedings, appoint a valuator, and let the whole of the work be done over again. It has been done cheap it must be acknowledged, but it has also been nasty, so the better plan would be to have it done once more, and done properly.

A PROTEST.—A meeting to protest against the Municipal assessment was held last night at 8.30 p.m. in Govindammal's Girl's School Hall, Uisoor. There was a large gathering of all races and creeds. Mr Sowcar Lingappa Chetty was appointed President. One of the gentlemen present, said that the whole of Uisoor and its neighbourhood contain a population of fifteen thousand and odd, and that representatives should be elected for each division. With the unanimous consent of the gentlemen present, about 40 were appointed as representatives. A committee consisting of the following gentlemen was appointed:—Messrs O. D. Lingaling, Madahar, Cheema-mallappa, Chettiar (President), Venkatram Malar, Paramasiva Muddaliar, Varadaraju Muddaliar, Kappaswami Muddaliar, Balrappa Chetty, Ramaswami Chetty, Siddappa Annaji, Khan, Ali Khan, Grams Ponnuswami Pillai, and Thambu Konar. The following resolutions were passed and carried as a consequence: (1) That all the owners of houses shall pay a subscription of one anna for every one rupee they pay as assessment and no subscription less than one anna be paid. (2) That the money thus collected shall be utilized for appealing to the higher authorities and for the drafting of the Mahazarnamas by an expert of legal merit, and other similar expenses. (3) That the subscription shall be collected as early as possible since the time left at their disposal was very short. The meeting dissolved at 9.30 p.m. with the announcement that another meeting will soon be held to adopt further measures.

INDIGNATION AGAINST THE REVISION OF HOUSE ASSESSMENT.—We learn that two or three retired Hindu officials, whose appeals against the revision of assessment of their houses by the Valuator were rejected the other day by the Revision Committee, are inviting the residents of Uisoor and its surrounding villages, to join them in preparing a Memorial for presentation to the British Resident in Mysore, appealing against the revision, as being unjust to the landed proprietors.

## Letter to the Editor

### GREAT INJUSTICE IN THE C. AND M. STATION MUNICIPALITY.

SIR,—It is quite known to one and all that the 2nd Magistrate of the C and M Station was appointed as Valuator by the Municipal authorities, and some Municipal Commissioners were also appointed to assist him in seeing whether the assessors have assessed the houses correctly or not. The above officers who set out on inspection duty neither took the trouble of enquiring the occupier nor the owner of the premises to ascertain the amount of rent realized therefrom, but continued walking on the roads while the clerk read out the assessment levied on each premises and they (the Valuator and his assistants) then and there pronounced the increased assessment at random and the clerks recorded the same without any delay whatever. It is doubtful if the above officers inspected 3 per cent of the houses on them they levied the increased assessments. A few days after this, notices were served on all the owners of houses to the effect that the assessment had been increased for improvement including additions &c. and that people may appeal for revision to the President on the 3rd instant. There was a large gathering on this day amounting to nearly 2,000 men on the *maidan* of the Municipal Office. There were many old men come from distant places hiring conveyances &c. Unfortunately the day was unfavourable, most of the people that were on the *maidan* were quite wet on account of the drizzling. A retired Police Inspector who owns 3 houses was assessed at an annual value of Rs 128; and this has since been increased to Rs 270. The Police Inspector was asked the reasons for his appeal for which he said that his houses were not valued on their income as per regulations but arbitrarily. On which the 2nd Magistrate who assessed the houses told the President that all houses were assessed on their income and the statement of the appellant was not to be credited. The appellant proved to the above officers the accounts he had with him with reference to the rents he collected and convinced them that the houses were not assessed on their income. One of the Municipal Commissioners, a Mahomedan gentleman, told his fellow Commissioners then that what the appellant said was reasonable, and that justice should be rendered to him, but his suggestion was not taken into consideration by the majority. The appellant finding no justice rendered to him, asked the Municipal authorities to return him his documents & appended to his application, to enable him to file a suit against the Municipality in the Civil Court, and he (the appellant) was ordered to reply in writing for the same. Not even a single appellant received a favourable answer from the authorities concerned. This is indeed a great injustice. Meetings in different parts of the C. and M. Station will soon be held to appeal to the British Resident to exempt the residents from paying the newly levied assessment and to allow them to pay the former assessment. Hence the Municipality will have no stain on it should it be pleased to render justice to the public before they appeal to the Resident, involving unnecessary expenses &c, as is now desired.

Sir,

I have the honor to inform you that the revision of assessment on houses, buildings and lands in the civil and military station of Bangalore has been completed with an increase of Ri. 15,676 - 11 - 9.

2. The work has given me far more labor and trouble than I had anticipated and I request you will be good enough to settle the percentage to be paid to me, as resolved by the Board in their meeting of the 8<sup>th</sup> April 1873, at an early date.

3. I would recommend an allowance to the revision clerk Sook Row, who has worked with me throughout the revision so honestly and satisfactorily -

2. In reply to your enquiry as to how the extra duties which it is proposed to entrust to Mr. Abdul Rahman, and for which an allowance of Rs. 100 is asked, differ from those performed by him apparently without special remuneration in connection with the revision of the house assessment for the Municipality of the Civil and Military station, I beg to represent that the municipal commissioners asked for Mr. Abdul Rahman's services on account of his great experience and local knowledge and passed a resolution granting him an allowance of Rupees 100 per mensem and a bonus on the completion of the work as at the time it was doubtful how long it would take and what trouble it would entail. The question of the bonus is now under consideration.

To,

The Secretary to the Govt. of India,  
Foreign Department.

Sir,

I have the honour to acknowledge the receipt of your letter No. 2415-I. dated the 18th July 1894, and with reference to para 4 on the subject of the grant of a monthly allowance and bonus to Mr. Abdul Rahman, 2nd Magistrate, Civil and Military Station of Bangalore, for work done in connection with the revision of the House Assessment in the C. and M. Station. I beg to submit the following explanation:

2. In considering the ways and means towards meeting the probable contribution by the Municipality towards the cost of a water supply in <sup>the</sup> C. and M. Station, the House Assessment was found to be a source likely to yield a larger income, and a revision of the tax was resolved on by the Municipal Commissioners in a resolution dated the <sup>8<sup>th</sup> April</sup> ~~8<sup>th</sup> February~~ 1893.

3. Some difficulty was experienced in finding a proper agency to carry out the work as many of the Commissioners were the

selves owners of property and others were incompetent, and it was found necessary to appoint an independent official whose character and position would be above question, and whose knowledge and experience would tend to a satisfactory completion of the work.

4. Mr. Abdul Rabran, 2nd Magistrate in the C. and M. Station, was considered the most suitable man for the work, and at the request of the Commissioners he was placed in charge of the work on a monthly allowance of Rs. 100, and the grant of a bonus in proportion to the increased Revenue obtained at the close of the operations.

The duties in connection with the revision of the House Assessment involved <sup>a very</sup> considerable addition to Mr. Abdul Rabran's work, <sup>which</sup> extended over a period of 11 months and could scarcely be undertaken without extra remuneration. He has carried out this work with much

tact and judgment and has increased the receipts

from this tax by Rs. 15,676 per annum.

5. I regret that through an oversight the previous sanction of the Government of India to the payment of the allowance to Mr. Abdul Rabran was not obtained but as the revision of the House Assessment was <sup>of pressing</sup> necessity

? (see o) Receipt

occupying several hours a day and

and the results have fully justified the ---  
means, I trust the Government of India will  
now accord sanction to the payment of the al-  
lowance of Rs 100, per mensem for // months  
to Mr. Abdul Rahman.

9. As regards the grant of the <sup>bonus</sup> Bonus; the  
Commissooners recommended the payment of Rs.  
2,500, <sup>This</sup> sum appeared to me excessive and  
*unnecessary* and they have now on my sug-  
gestion, recommended the payment of Rs 1,100 .  
to Mr. Abdul Rahman to which I now solicit  
sanction.

Foreign Deptt: Ser,

S 24 In reply to your letter  
No. 2680-385-92, dated the 6<sup>th</sup>  
August 1894, I am directed to  
convey sanction to the acceptance  
by Mr. Abdul Rahman, 2<sup>nd</sup>  
Magistrate in the Civil and Military  
Station of Bangalore, of the  
allowance of Rs. 100 per mensem  
paid to him by the Municipal  
Commissioners for reversing the  
house assessment in the Civil  
and Military Station.

As regards the further bonus  
which the Municipal Commissioners  
propose

propose to say to Mr. Abdul Rahman, I am to say that the Government of India are of opinion that he has been not insufficiently remunerated by the grant of a monthly allowance for the work done by him for the Municipality. In view, however, of the fact that Mr. Abdul Rahman has been led to expect that a bonus would be granted to him, the Government of India are pleased to sanction the payment to him by the Municipal Commissioners of an additional sum of Rs. 300, that being equal to one month's pay.

3. I am to add that the Government of India cannot view with satisfaction the arrangement entered into by the Municipality which had the effect of giving the assessing officer a bonus in

in proportion to the increased  
revenue obtained by his assessments.  
An assessing officer holds a  
quasi-judicial position, and the  
Government of India consider that  
he should not be placed in the  
position of having a pecuniary  
interest in his own judgments.

In para 2 of this office letter no. 274, dated 24<sup>th</sup> April 1894, in re the B. C. This is wrong and should have been for that year (1894-95) only, as it included the balance carried forward from the previous year.

Taking the nominal receipts, as per recent financial statement for 1894-95, the figures will be as follows:-
